

MeraSan Philosophy

In today's jungle of cosmetic products, it's becoming more and more difficult to find what you need. We would like to offer you our contribution by introducing you to a range of pure natural cosmetics.

Over the past seven years we have grown to understand the needs of the consumer. There are many discussions about various ingredients and also the use of certain raw materials.

We would like to assure you, that MeraSan care and cosmetics range specifically reject using any substances that have been questioned, o.a; glycerine, mineral oils or chemical fluorides.

The MeraSan care and cosmetics range is based on the "Original Rügener Dreikronen-Heilkreide." This chalk is an over 70-million-year-old natural, endemic healing substance.

Unsurprisingly, the chalk has been used for more than 100 years in a wide range of applications. Because of its alkaline value (pH 8-9) the chalk can be used to treat skin problems as well as successfully treating the musculoskeletal system.

Our MeraSan care and cosmetics range was created a result of these recognitions and ranges from chalk-balm for treating skin, muscles and joints to a natural deodorant free of aluminium salts or alau.

Our Product Guarantee

MeraSan stands for quality and natural cosmetics. Use these natural products to improve your health and well-being.
